Modifications And Delivery Orders 1.1

Presented By:

David Guinasso

September 4, 2016

Introduction

- The changes to MDO described in the Guide applies only when the user is modifying contracts exceeding 100 Line Items.
- If the user is modifying contracts with less than 100 CLINs, the changes in this Guide do not apply.
- Refer to the on-line user manual and training material for additional guidance on using MDO.

MDO 1.1: General Concept

- Previous versions of MDO did not allow user to modify contracts exceeding 100 Line Items.
- MDO version 1.1 allows user to modify contracts that exceed 100 Line Items. Major changes when modifying contract exceeding 100 Line Items are:
  - Users must enter Line Item to be modified. Browse Line Items is not available when contract exceeds 100 Line Items.
  - View ACRN: ACRN and associated Line Item will not be visible until the Line Item is selected to be modified.

MDO 1.1 Changes: When contract exceeds 100 Line Items

- When Contracts exceed 100 Line Items:
  - Users will need to enter the Line Item to be modified on a new page “Insert Line Items to Modify.”
  - Users will no longer be able to view Line Items on the “Browse Line Item Page”, **until** they have selected the Line Item to be modified.
  - Only those Line Items selected to be modified will appear on “Browse Line Item Page.”
  - Only one Line Item at a time can be modified. Users will not be able to apply changes to all line items when modifying contracts that exceed 100 CLINs. Confirmation Page will not display ‘Apply These Changes to Other Line Items.’
  - Users will no longer be able to view the association between an ACRN and the Line Items, when Line Items exceed 100, **until** the CLIN(s) to be modified have been selected.

Line Items exceeding 100 (1)

- When the Line Items exceed 100:
  - **Browse Query Results Page** – When the User clicks on the "Create" link they will get a message which states "The Contract selected exceeds 100 CLINs. Due to the size of this contract, Line Item information will not down load or display on the "Browse Line Item Page". In order to modify a CLIN for this contract, users will need to select the CLIN(s) using the "Modify Line Items" link.
  - **Browse Line Item Page** – There will be a new link "Modify Line Items" which will take the User to a separate page to allow entry of the CLIN(s) to be modified. CLINs can only be selected one at a time.
  - **Insert Line Items to Modify** – This is a new page. When the Line Items exceed 100, the user will be required to enter the CLIN they wish to modify on this page.
  - **View ACRN Page** – When Line Items linked to a contract exceed 100, the ACRNs will not display until the user has selected the CLIN(s) to be modified.
  - **Confirmation Page** – "Apply these changes to other Line Item(s)" link will not display.

When Line Items exceed 100,
the "Apply these changes to other Line Item(s) link" **DOES NOT DISPLAY**.

Summary

- This manual describes only those changes to MDO when a user attempts to modify contracts exceeding over 100 line items. Major changes are:
  - 'Insert Line Item to Modify' page replaces 'Browse Line Items' page. User must enter line item to be modified.
  - On 'View ACRN' page the ACRNs will not appear until the Line Item being modified has been selected.
- If a contract does not exceed 100 Line Items, the changes described in this guide do not apply. MDO will appear and function exactly as in previous versions.
